The Office Location: 1-Chome, 3-Ikejima, Minato-Ku, Osaka city 552-0015, Japan
Up-Ota Co. Ltd. Japan,

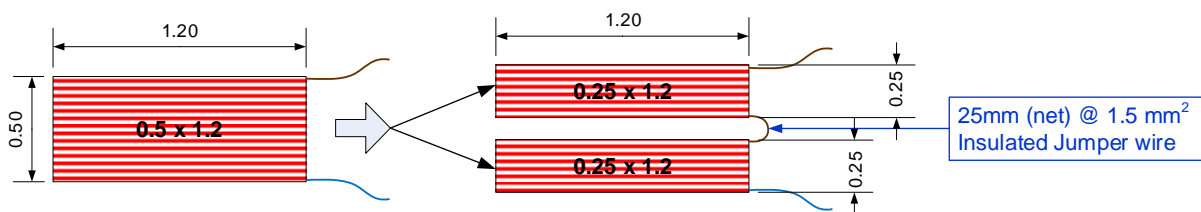

Up-Ota Co. Ltd. service includes renovation projects from interior work of houses to improvement work and daily cleaning of building condominiums. Up-Ota is operating in area such as Osaka, Kyoto, Hyogo, Shiga, and Wakayama prefectures.

GHT Japan, together with JCE Overseas as well as Kameda Denki and its affiliates are proud to report on the completion of indoor heating installation project. This project was conducted in newly built Up-Ota's office, supervised by Up-Ota's president Mr. Nojiri Tetsuya who wanted to examine the performance of AHT's indoor heating mats after the adjustment to the Japanese construction standard formfactors “**shakkanhō**” (尺貫法) depicted below.

Up-Ota Co. Ltd. intends to integrate AHT's underfloor heating mats on future projects that will require underfloor heating solution.

AHT's standard heating mats sizes were adjusted to meet the Japanese flooring standard by implementing the following concept:

and were installed in Up-Ota Co. Ltd

The following selection of photos exhibit a perfectly done neat installation in compliance

2nd Floor (out of 3 floors) Heating Mat Layout.
